Familiar Faces of the Department of Anthropology in the Year 2000

College of Arts and Sciences
The University of Alabama
Background

In the year 2000 the Anthropology Club was commissioned to put together a small bulletin board exhibit that showed Who was Who around the Department that year. Recently I found a roll of color print negatives in a box that was being discarded. I noted that the images were of people, so decided to develop them. Here is the result.
